Moderator: Dianne Allen **Title of File:** 20070809titraining

Date: August 9, 2007

Room: Teachers In Training Group

DianneA: Hello Aidalin, Anabell and Nuvia ...

DianneA: early birds I see

DianneA . o O (unless I am late again?)

AidalinS: no

AidalinS: just in time

DianneA: good ...

DianneA: then what sort of thing might we explore here today .. what is on your mind/s

BJB2: This group has been attending a lot of discussions, Dianne....

BJB2: I'd be interested in hearing their feedback on what they think of participating in text chat...

DianneA nods to BJ

BJB2: and if they feel they've gained anything from the experiences

DianneA: great questions BJ

DianneA: and the silence is deafening, but perhaps our crew for today is waiting politely for the starting time for the discussion so that 'no-child-is-left-behind'?

DianneA: Welcome to today's Teachers-in-Training session

DianneA: are you all members of Dr Brown's class?

NancySal: yes

AidalinS: yes

NuviaS: yes

DianneA: and have you been to a series of Tapped In sessions as part of a summer assignment?

AidalinS: yes

NuviaS: yes

NancySal: class sessions, yes

DianneA: then what Bj and I, as Helpdesk staff, and professional developers and wondering how to make Tapped In even better ...

DianneA: what we would like to know is ...

DianneA: how have you found these sessions

DianneA: what have you got out of these sessions?

AidalinS: a sense of knowledge

DianneA: how could we make these sessions better for folk like yourselves

NuviaS: more experience, technology wise

NancySal: learning to chat with peers

AidalinS: talk about things that are affecting us

AidalinS: well I mean future teachers

NuviaS: I wouldn't know but I see good so far.

AidalinS: things that we can utilize in the future when we start teaching

NancySal: I think that communication can be done in many ways, and this is an alternative form of communicating.

DianneA: One of the first things we do in a session like this is ask people to introduce themselves ... where they are from, and what area of teaching are they in or looking forward to being in ...

DianneA: so over to you ... where are you from?

DianneA: what area of teaching is your specialty or where do you hope to teach?

DavidW: I'm David Weksler. I help teachers learn more about educational technology.

I'm one of the HelpDesk volunteers. I'm in New Jersey, near New York City

DianneA: I am from Wollongong Australia, and my area is professional development

DianneA: thanks David

BJB2: I teach communication and am in Pennsylvania

AlexandrMB: umm I am from Edinburg and I am hoping to teach 11th grade English

DianneA notes that the group might like to detach their chat area (click on Actions and on Detach)

GregMar: I'm from Weslaco, Texas and I plan to teach 11th or 12th in high school

DianneA: thanks Alexandra, Greg, anyone else for the introduction please

AlexandrMB: please just call me Alex

AlexandrMB smiles

DianaG: I'm from McAllen Texas, plan to teach elementary

AidalinS: yeah you could all call me Aida

DianneA: We thought we would take the opportunity today to look at your recent experience of Tapped In, as part of your preparation for teaching ...

SylviaMe: Thanks

AlexandrMB: ok

CatherineZ: sounds good

DianaG: ok

DianneA: in what way has Tapped In helped you feel more comfortable about teaching in the near future?

AlexandrMB: the tech, that goes with it it's preparing us for the future

SylviaMe: there is so much information that is coming from a variety of places

DianaG: yes

DianneA: can you elaborate with a bit more detail, Alex?

AlexandrMB: yes and the resources that we are exposed to

DianneA: is that helpful Sylvia?

SylviaMe: yes very much

AidalinS: it has helped me because I feel that I can express myself more than before

NancySal: I think that technology opens many doors, and this is a very good example of the things that technology can accomplish

CatherineZ: Yeah, I agree with Alexandra. Also, all of these chats give you valuable insight from experienced educators and professionals

NuviaS: it has gained me confidence with the classmates, because it's easier to ask a question or have a conversation.

AidalinS: plus it has taught me about technology and the presentations are great

GregMar: It's helped me to become more aware of how to post links, talk to other students, but importantly it has prepared me to involve the internet more with teaching

MariaBa: so do I

DianneA: so you are seeing, through Tapped In the potential to use the computer as a source of information for teaching?

AlexandrMB: ummm. it is because it is the future of classroom teaching

CatherineZ: Definitely, Dianne

NuviaS: presentations are very good and they are very understanding and easy

AlexandrMB: look at it right now tech. is already in play look at us now

SylviaMe: We have to stay one step ahead

AlexandrMB: we are holding discussion

CatherineZ: yup

AlexandrMB: just imagine a couple of years from now when we are teachers

NuviaS: yes

CatherineZ: technology is only going to continue advancing

NancySal: Yes, Nora

DianneA: Is there anything about Tapped In that has challenged you about your preparation for teaching?

NoraEG: yes I also agree

DianaG: yes I agree

NoraEG: I have learned a lot thanks to Tapped In

AidalinS: yes I also agree

MariaBa: yes

CatherineZ: I would say it has challenged my ideas or points of view. I've become a lot more open minded because of the chats and things that I learn

AidalinS: yes in the beginning

NancySal: I also, have learned as I've gone through the program

DianaG: I learn about so many resources and also from professionals

AidalinS: but now I feel more comfortable with it

CatherineZ: The Education program, Nancy?

SylviaMe: my challenges are being computer literate and I am surprised at the things I know and so are my kids

NuviaS: as a student it has, I think this program competitive situation

NoraEG: I agree with Nancy

AlexandrMB: yes it has because we are stepping out of the norm

NuviaS: yep

MariaBa: I've save a lot of resources that can help me to use technology in the classroom

AlexandrMB: the classic classroom setting

DianneA: what do you like most about the chat facility at Tapped In?

CatherineZthinks maybe tapped in is "the program"

SylviaMe: the help

CatherineZ: the chat is always interesting. No matter what the topic....

DianneA thinks Catherine might be correct

CatherineZsmiles

AnabellR: Is something new for me and I learn new things

SylviaMe: I agree

AlexandrMB: it has allowed us to be more opened minded since tapped in is like a whole education world within itself

NuviaS: it's very convenient

NancySal: I like the fact that I can have a conversation such as this one, and not have to leave my home.

AlexandrMB: it leads to many places

SylviaMe: me too Nancy

CatherineZ: Convenient for sure.

MariaBa: and time goes so fast with technology

AlexandrMB: it is convenient

AnabellR: I agree with Alex

CatherineZ: Chatting is a lot more interesting than say a big group meeting

DianneA: what do you like least about the chat facility at Tapped In?

AlexandrMB: yes and u are not embarrassed

CatherineZ: Also, people tend to interact and engage themselves more in the conversation while chatting

DianaG: yes because everybody participates

CatherineZ: Perhaps more than they would in person

AlexandrMB: yes because it is a relaxed setting

AnabellR: and available at home

NuviaS: you don't get to see the person who you are chatting with

MariaBa: we can communicate about our assignments

AlexandrMB: it is like what some teachers say that a student can go through their whole college career and not say a word

NancySal: I am still learning about it and I am hoping to learn from it for future needs

NancySal: I agree with Nuvia as well

CatherineZ: The thing I dislike would be that there is no noise when someone adds a line in a chat. Like when you receive a private chat there is a little "ding" noise. I'd like the noise, that's how AIM and other chatting programs have it

NoraEG: I am also learning but it has being a challenge for me

DianneA: Nuvia, if you highlight my name under the HERE tab and click on the green I icon at the bottom, you can get to see me

AnabellR: I love to listen and learn

AidalinS: I was confused in the beginning but I am getting the hang of it now

MariaBa: when I first started my class I had no idea I would become a member of

CatherineZsees the picture of Dianne

NuviaS: ok

NoraEG: how can I see her

DianneA grins to Catherine and Nora

NoraEG: I didn't know that was possible

AidalinS: I didn't now that either

CatherineZ: highlight her name on the HERE tab then click the green "i" icon at the bottom

NancySal: At the beginning I thought I would never get the hang of it either but it is not as hard as I though it would be

MariaBa: Especially when we had to do presentations online

AlexandrMB: because there are people to help you

DianaG: yup is easier than what I thought

AlexandrMB: and they are nice

NoraEG: true

NoraEG: there is always somebody here to help me and guide me

AnabellR: Is good to see a face of the person you are talking

DianneA: Ok, then, taking the conversation to another area ...

AlexandrMB: no one is going to be cruel because we are all here to learn

MariaBa: they walk you through

NuviaS: wow I sure didn't know this

AidalinS: me neither

DianneA: what else about Tapped In besides the chat do you find most helpful?

SylviaMe: the calendar

AidalinS: turning in assignments to Dr. Brown

AidalinS: and the calendar and other features that are on here

AnabellR: posting web sites for presentations

DianneA: do you mean the transcripts Aidalin?

AlexandrMB: the resources it provides after learning the process

AidalinS: yes

NoraEG: I also like that

CatherineZ: I'd say it's easy to navigate. So, that makes it more useable

MariaBa: You get to communicate with educators all over the country

AlexandrMB: yes it is easy

NoraEG: the transcripts are very good and helpful

DianneA: and internationally Maria

AidalinS: wow

MariaBa: Wow

NancySal: What I find helpful is that if you have a question other students can help you

out

NuviaS: Interesting

AidalinS: I didn't know that

NancySal: wow

AlexandrMB: yes because u ca go back and get whatever u need

DianneA looks out her window at a sunny winter's day in Kiama

NoraEG: very interesting

AlexandrMB: yes it is helpful

MariaBa: That's great

AlexandrMB: I never had a bad experience with tapped in

NoraEG: very great

AidalinS: yup

MariaBa: You all are so friendly and helpful

AlexandrMB: and how easily it is to talk to people across the world about topics, issues,

education, and so on

DianneA: Let me show you all something else ...

SylviaMe: Where is Kiama?

AnabellR: I have the same question sylvia

CatherineZwonders where Kiama is too

NoraEG: who is Kiama??

NuviaS: who is Kiama

DianneA: I am going to go to my office, where I have some pictures of Kiama and links

to Kiama available

NancySal: ??????

DianneA: do you know how to follow me there?

DianaG: kool

SylviaMe: not really

AnabellR: no

NoraEG: I don't
