

Title of Session: MusicShake Live Demo!

Moderator: Kihong Bae and Luke Seo

Title of File: 20090708musicshake

Date: July 8, 2009

Room: MusicShake Group

LukeS joined the room.

BJB2 cheers. Hi, Luke!

MarleneK: Yay!

LukeS: Hello...

LukeS: sorry I am late...

BJB2 hopes everything is ok

LukeS: How is everyone doing?

BJB2: I'm good, thanks. Looking forward to this discussion

JennyW: Doing good thx - you're not late Luke!

MarleneK is good, though keeping an eye on the sky during a funnel cloud watch.

KihongB joined the room.

LukeS: Thanks Jenny....

BJB2: yay...hi, Kihong

KihongB: we are so sorry!!!

KihongB: blame it on LA traffic :)

BJB2: no problem, guys!

KihongB: we are going to do a live demo

JeffC: nick of time Kihong! welcome!

KihongB: but first, you have to download a little s/w for this

KihongB: have you guys tried www.yugma.com?

BJB2 nods

LuandaR: no

JennyW: Looked at it

JeffC: yes

KihongB: do you think it's okay if we all download it? this way, I can actually share my desktop with you all

JeffC: that will take a few minutes, but it's a good idea.

JeffC: have you already started a yugma session, Kihong? If so, what is the session #?

KihongB: I wanted to make this announcement in advance, but based on my past experience not many people download it in advance!

JennyW: Which version?

JennyW: I mean shall I do the Skype version or regular?

KihongB: the latest version should work. the regular version

KihongB: and I'll give you a number you can all log in to hear voices

JeffC: also when prompted choose "interact" rather than "view only."

KihongB: Kihong Bae invites you to Yugma MEETING: 318-989-311.

KihongB: Please visit

<https://www.yugma.com/app/loading.php?user=&role=0&collsession=318989311> to join.

KihongB: these are the details

KihongB: you can just click on the link to join the meeting

JeffC: the install is 36 megs... which will take some time on some computers.

JeffC: when clicking a link here be sure to hold the Ctrl key down or accept popups from this site... otherwise your popup blocker will log you out.

KihongB: sorry about the last minute install...we deeply, truly apologize

KihongB: also for voice, please dial [605-475-4261](tel:605-475-4261)

KihongB: Access code: 318989311

JeffC: unfortunately my son is bugging me to play baseball (again)... and I have to run.

KihongB: sure Jeff - you already know about Musicshake so I think that's okay

LukeS: (in case this helps) when you log into YUGMA, you may become the host of a meeting... you can join our meeting by going to FILE -> JOIN A MEETING

LukeS: then enter your info and the access code

JennyW: Where do I dial in?

BJB2: yeeeehawwww!!! I'm in as a view only

MarleneK: Yugma requires Java 1.5.. I only have 1.4.2 ... probably needs Mac OS X 10.5... So this phone number you gave.. 605 475 4261... can I skype you on that and listen in?

KihongB: yes, I think you can hear the sound

BJB2: Marlene, you can call the number and use the code to hear the sound

BJB2: but it will be difficult to understand unless you see the video

MarleneK: I'll give it a try :)

BJB2: Jenny is in over skype

BJB2: waiting for Luanda to call in.

BJB2: are you calling in, Luanda?

MarleneK: Am I in? I hear music.

BJB2: Kihong is showing some ppt slides as intro

BJB2: normally to become good at music and become a musician takes a long time: classes, theory, practice

RuthRS joined the room.

BJB2: MusicShake makes the process much easier. Allows anyone to create music,

generate music

BJB2: Hi, Ruth

RuthRS: Hello.

BJB2: we're using Yugma to see Kihong's desktop and a conference call to hear his voice

BJB2: musicshake is Garage Band on steroids ;-)

BJB2 . o O (for those on pc's that are not able to access garageband)

BJB2:

<https://www.yugma.com/app/loading.php?user=&role=0&collsession=318989311> to join.

BJB2: for voice, please dial [605-475-4261](tel:605-475-4261)

BJB2: KihongB: Access code: 318989311

BJB2: Fun and engaging program

BJB2: anyone can be a musician

BJB2: can be used for fundraisers...create a CD that can be marketed

BJB2: have to download musicshake but is not a huge file

BJB2 . o O (free download)

BJB2: left side of software is "tracks" for various instruments

BJB2: on right is sections of time for that track

BJB2: you can combine as many tracks as you wish. The musicshake program takes care of the actual music

BJB2: one track can be a sample of vocals. The demo is using a female humming vocal...very cool!

BJB2: demo used only 5 tracks, but you can add many more

BJB2: you can also adjust the volume

BJB2: musicshake does the work of harmonizing and blending all tracks

BJB2: you can adjust the volume of each track

BJB2: over 500,000 music samples available. All samples created by musicshake musicians...so no copyright issues

BJB2: after you create music you can post to musicshake.

BJB2: you can download as MP3, send to facebook, ringtone, social networks

BJB2: students can add music to videos, slideshows, etc. without violating copyright

BJB2: you do have to pay if you download your music...very low fee

BJB2: does anyone have any questions?

KihongB: so we are back!

BJB2: we're all coming back to TI to ask questions

BJB2 cheers wildly

KihongB: it's kinda strange moving from here and there on the web haha

LuandaR: yes but it was fun

KihongB: I feel like I'm on a time machine or something

MarleneK: That was very cool :)

LuandaR: thanks so much for such an interesting lesson

KihongB bows

BJB2: great example of how Ti can be used as a Learning Hub...using other applications to extend the features of Tapped In

MarleneK nods.

BJB2 applauds wildly

KihongB: yes - I'm amazed at what technology can do

KihongB: w/o these tools, I am not so sure how I would have done this demo

LuandaR: I agree BJB2

JennyW: thx

BJB2: Jenny, we were just discussing how using Yugma has extended the features of Tapped In

BJB2: we're planning a mini-expo on that very topic!

JennyW: Sounds like a great idea!

BJB2: the mini-expo will be Tapped In: Learning Hub

LuandaR: yeah great idea

JennyW: I would use the Yugma Skype though

JennyW: It is easier than having to sit with a phone in your and if you already have a headset

BJB2: thanks for the demo...gets the ideas just racing, Kihong!

KihongB: yup I think that's what I'll do the next time

KihongB: thank you :)

BJB2: good idea, Jenny

KihongB: any questions?

JennyW: I wanted to ask...

JennyW: I downloaded the musicshake but then I needed to create an account afterwards right?

KihongB: well you can create music without an account

KihongB: but if you want to save your creations

KihongB: then you have to as we need to know who created what

JennyW: I must have missed a step because when I have the shaker up it asks for an account

MarleneK: Kihong No questions this time, you answered alot of my questions the first time you presented here. And this presentation clarified a few things as well. I'm ready to play... just have to acquire a PC

BJB2: come over to my house, Marlene!

MarleneK grins.

BJB2: This hour has just flown! Thanks again, Luke and Kihong. I tried to take notes during the presentation so that there would be a transcript

LukeS: Jenny if you need any help just email us

LukeS: (LukeSeo@musicshake.com)

KihongB: Thanks BJ for your support. I saw that you were typing the notes

LuandaR: thanks Luke and Kihong....applause

JennyW: I'll figure it out - thanks guys!

KihongB: I wanted to do that too but was overloaded with the mouse/phone and the demo :)

BJB2 waves goodnight. Are you doing a session in August, Luke and Kihong?

LukeS: we sure will

RuthRS: I thought I had to create an account too but by the time I did that, I was lost! Then in the middle of the conference call, my phone got cut off. Sooo I will have to try this another time after I have played with Musicshake a bit.

BJB2 . o O (August 12)

RuthRS: Thanks!

LukeS: thank you all

KihongB: yup 8/12 sounds good

BJB2: Ruth, also look at the archived transcripts at www.tappedin.org/transcripts

BJB2 waves goodnight...see you on 8/12!

KihongB: thank you everybody

JennyW: Nite y'all!

RuthRS: Great advice!

MarleneK: Thank you !!
